Gaza city, Palestine

Summary

- Actually, since long time I am very interested to start learn programming languages because in the last few years I heard a lot about programming and I realized that the future is for programmers. Since that time, I decided that my future job would be a web developer.
- Currently I have had completed and Graduated from IT Foundation Course with Gaza Sky Geeks.
- I can work individually and with team, I am looking forward to develop myself.

EDUCATION

- High School –Hasan AL Harazeen School (GPA : 97.7%) – Academic Year 2022 (Scientific Stream)

SKILLS

- Fluent in both, oral and written communications in English and Arabic.
- Excellent knowledge in Python Programming Language.
- Willingness to learn.

EXPERIENCE

- I built a project in Python Programming Language during the IT Foundation Course, it is a library project, through which to add, delete and modify.
